

World-Class Health Care — At Work

Trusted clinicians, tailored, exceptional care and transformative health and safety outcomes — it's all part of the Johns Hopkins Onsite Clinic experience.

From holistic primary and preventive services to end-to-end occupational health, our customizable onsite services ensure employees receive continuous, coordinated care, right at work.

What You'll Gain:

A Johns Hopkins-driven **culture of health** that supports job performance and productivity

Improved **employee health outcomes** with convenient, expert care available nationwide

Reduced **total cost of care** and time away from work for employees, with **proven ROI** and savings for employers

The ability to **attract and retain high-quality talent** with high-quality benefits

Opportunities for **seamless scalability** with consistency of care across your organization

Trusted partnerships with expert, tenured Johns Hopkins Medicine clinicians, faculty and leaders

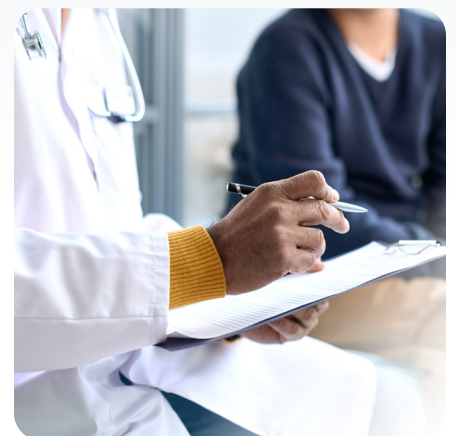

The Power of Timely, Accessible Health Care

World-renowned expertise, high-quality care and an interest in learning and understanding your company's unique culture have led to a **99% overall patient satisfaction rating** in Johns Hopkins Onsite Clinics. That's because our focus is on building progressive, long-standing partnerships that drive meaningful results.

Discover high-quality longitudinal care, delivered directly at the workplace.

“A level of discretion and privacy that surpasses any I have experienced with personal preventive care physicians.”

EMPLOYEE TESTIMONIAL

What Sets Us Apart

Our mission is to improve people's health and well-being by bringing you the best of Johns Hopkins. Our vision is to inspire and empower global populations to be the healthiest they can be.

The Johns Hopkins Advantage
