

## Addressing Health Care's Challenges

Johns Hopkins HealthCare president Patricia M.C. Brown guides you to the ways Johns Hopkins experts and programs can help your organization improve the health of your population.

## Worksite Clinics Help Keep Employees Healthy, on the Job

Healthcare at the workplace adds value to employers and reduces the amount of time away from work for injury or illness related absences, while keeping employees happy.

## Bringing Science to Patient Safety

Featured Expert: Peter J. Pronovost, MD, PhD. Quick fixes won't improve patient safety. Long-term solutions are rooted in the science of patient safety.
